**TARIFF FORMAT**

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Kentucky Public Service Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. - C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Pages** - When a tariff filing is made with the Kentucky Public Service Commission, an updated Check Page accompanies the tariff filing. The Check Page lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Page is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.)

**SECTION 3 - SERVICE AND RATE DESCRIPTION****3.1 InterLATA Calling Service****3.1.1 General Description**

InterLATA Calling Service is available to Customers over the Company's switched or switchless access lines.

Service is available only in conjunction with the Customer's subscription to the Company's local exchange services. For Customers subscribing to the Company's local exchange services, service is available on a Switchless basis or provisioned on a Dedicated Long Distance facility. If the Customer discontinues services with the Company such that the only remaining service is Switchless and/or Dedicated Long Distance Services, the Company reserves the right to discontinue the Switchless and/or Dedicated Long Distance Services upon providing the Customer a 30-day advance notice of disconnection. The Company may waive the Local Exchange Service requirement for Dedicated Long Distance facility on an individual case basis.

This Service is available to Customers that subscribe to the Company's local exchange services in a minimum of one location. Customers that meet the minimum requirement may also purchase services at locations where they do not subscribe to the Company's local exchange services and/or subscribe to a dedicated on-net direct dial service over the Company's carrier's digital network utilizing a DS-1 connection between the Company's switch and the carrier's nearest hub. All off-net services will be handled on a contractual basis only.

**SECTION 3 - SERVICE AND RATE DESCRIPTION, *continued*****3.1 InterLATA Calling Service, *continued*****3.1.2 Timing of Calls**

Long distance usage charges are based on actual usage. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection. If the called station hangs up, but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network. Chargeable time does not include time lost because of faults or defects in the connection.

The minimum call duration and rounding of calls for measurement and billing purposes is six (6) seconds. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Fractional cents will be rounded to the next higher cent.

**SECTION 5 - GRANDFATHERED SERVICE****5.1 Grandfathered Services****5.1.1 TimeOut (1+ Dialing) Service**

The following services are available only to the Company's Customers of record as of October 15, 2001.

**A. General Description**

TimeOut (1+ Dialing) Service is an interLATA long distance service that is flat rated and is billed in six (6) second increments. Service is available to Customers over the Company's switched or switchless access lines. No minimum volume commitment is required.

This service can also be provided as a dedicated on-net direct dial service over the Company's carrier's digital network utilizing a DS-1 connection between the Company's switch and the carrier's nearest hub. All off-net services will be handled on a contractual basis only.

**B. Timing of Calls**

Long distance usage charges are based on actual usage. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection. If the called station hangs up, but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network. Chargeable time does not include time lost because of faults or defects in the connection.
